Principals of Principle!

at the 2008 LightFair International Trade Show and Conference

THE NUCKOLLS FUND FOR LIGHTING EDUCATION INC.

Front row (l-r) B-K Lighting's very own Ron Naus; Lisa Friehe, recipient of the Jonas Bellovin Scholar Achievement Award; Rui Qi, recipient of the Jules Horton International Student Achievement Award; Frank Conti, Enterprise Lighting Sales; Robert G. Davis, Light Control. Back row (l-r) Abimbola Asojo, recipient of a \$20,000 grant for the University of Oklahoma to develop and deliver a new advanced lighting design course; Barbara Horton, Horton Lees Brogden Lighting Design.

For the past few years, B-K Lighting and Teka Illumination have played an active role in The Nuckolls Fund for Lighting Education by underwriting The Nuckolls Fun Run and Walk at Lightfair.

But as many of you are aware, B-K Lighting and Teka Illumination did not attend Lightfair this year. When The Nuckolls Fund was unable to secure a new sponsor for the Fun Run and Walk, we decided something still needed to be done.

B-K Lighting and Teka Illumination challenged all principals of our sales offices to help support The Nuckolls Fund by making a generous donation. We encouraged all of our sales offices to share in this opportunity and in our commitment to educating the lighting community.

We would like to thank all principals that responded to our challenge and invested in the

future of our lighting community. You made it possible for Ron Naus to present Fund President Jeffrey Milham with a check for \$6,500 at The Nuckolls Luncheon on May 29 in Las Vegas. ★

The Nuckolls Fund for Lighting Education was established in 1988 to support college-level lighting programs that enable students to learn, appreciate, and apply the basics of lighting and design. B-K Lighting and Teka Illumination have been very successful at raising awareness and money for The Nuckolls Fund at Lightfair by sponsoring the Nuckolls Fun Run and Walk for the past few years.

A Note of Thanks!

from Adrienne Kelly of Prudential Lighting

SWEEPSTAKES
change
will do you good

Thank you for selecting me as a winner for the Change Will Do You Good mini-vacation. My boyfriend and I went to Palm Springs for four nights and thoroughly enjoyed it! It was hot, but you know what they say, "It's a dry heat." The pool was marvelous, and during our time there, the stress just melted away. The voucher enabled us to stay at this really nice resort for longer than we might have stayed otherwise. ★

An Birds-Eye View!

Jason Mendez and Becky Carlson were seen buzzing around the building July 17 taking pictures of the facility. The 240-kilowatt solar electric system consists of 1,300 Mitsubishi Electric 170-watt panels installed on our rooftop, supplying two-thirds of our overall electrical power per year. WOW! That's impressive.

CUSTOM CORNER Fan of Light...
